Purpose Statement

Southern Dandenongs Community Nursery Inc. (SDCN) is established to be a charity with the purpose of preserving and enhancing the natural environment by:

- Propagating plants indigenous to the Dandenong Ranges region using locally sourced and genetically diverse material to strengthen ecosystem resilience.
- Supplying plants for habitat preservation and restoration.
- Educating the community about the ecological significance of indigenous flora and its essential relationship to local fauna and landscapes, and supporting their efforts in its protection.
- Advocating for the management and conservation of remnant bushland.
- Recognising and integrating the ecological knowledge of traditional owners to improve practices for better environmental outcomes.
- Ensuring operations are relevant to community expectations and needs.
- Providing a safe, welcoming environment to learn and share new skills and experiences that support the purpose.

Southern Dandenongs Community Nursery Inc.
